NATURAL SELECTION

Katia
100% wool

Striking is the extra softness due to the 20% Viscose in the composition and the easy handling and care of the garments thanks to the Superwash treatment of the wool used.

SCANDINAVIA *New*

An exquisite, high-class basic yarn with a 100% natural composition, of which 15% Super-fine Alpaca, which is set to revolutionize electronic printing.

Its particularly outstanding features include the precision of the lines in the Jacquard effect, and also the fact that it has been applied to an untreated fawn coloured base which gives the yarn an even more unique twist.

Another key feature of the yarn is that it is machine-washable, which guarantees the maximum ease and comfort when taking care of the garments.

Promotion: Customers who buy the 8 colours of this yarn get the free knitted model S-207.

85% Merino Superwash (Lana / Laine / Wool / Wolle /

PANDORA *New*

A romantic, hand-printed version of our popular MERINO SEDA base yarn.

We have chosen this specific basic yarn because of the characteristics of its structure in which the Silk and Wool appear separately, intertwined with each other, creating a rustic effect that fits perfectly with the image that we want to give the project.

In this case, the yarn is produced using a 100% artisanal process in which the handcrafted “ball to ball” approach means that every single garment is unique.

This yarn is delivered in cardboard boxes (artisanal) of 5 balls, in which 3 leaflets with the description of the 2 models are included.

52% Merino Superwash (Lana / Laine / Wool / Wolle / Wol / Lã / шерсть / Villa / Ull / Μαλλι)
48% Seda / Soie / Silk / Seide / Zijde / Seta / шёлк / Silkki / Μετάξι

INGENUA MODA *New*

Modern and contemporary multicolour fantasy yarn with a milrayas effect, based on our popular brushed basic yarn INGENUA to captivate people on social networks with the latest fashions in this field.

The main advantage of this yarn is that it allows us to follow current trends without making complicated stripes and by working with multiple balls at the same time.
The performance of the yarn is optimized, avoiding a surplus of different colours.

In addition, and given the design of the garment and the (thick) needles with which it is knitted, it will become a very versatile item to knit all year round.

EASY HAT *New*

An ingenious, limited-edition, perfect cycle yarn that enables us to knit a fun, complex hat by effortlessly following a simple pattern with a plain stitch.

This is a downy chain-ply yarn with a wool/acrylic composition, the cycle of which consists of an ecru block section at the start of the ball (with which we will make the rim of the hat, setting some aside for the pom-pom), followed by a multicoloured effect that alternates with small inserts of the same ecru colour, thereby creating the end result of an original hat with a Jacquard effect, without the need for any sophisticated techniques.

A limited edition that enables you to make a hat with a single ball. Each pack includes 4 leaflets.

40% Lana / Laine / Wool / Wolle / Wol / Lã / шерсть / Villa /
Ull / Μαλλι

TWINS *New*

The Jacquard effect marks the start and end of the cycle, represented by a contrasting colour, which is very dense at the beginning and then gradually fades out as it reaches the halfway point of the ball, before progressively reappearing to finish off with the same effect as it began.

The main sales argument of this product is the garment that we use to promote it. It is made with 3 balls (450 grams) and we provide the material required to make it in advance (3 balls and an online pattern to download), to the clients who buy the full colour range (8 colours), so that they can knit the garment ready to show it off in their window displays at the launch of the season.

AZULEJO *New*

An attractive fancy yarn with a commercial price and composition, based on a soft roving structure with a fun decorative component in the form of printed tablet-shaped inserts to give it a subtle multicoloured touch.

This product is suitable for all markets thanks to both its versatile colour range and easy washing conditions.

MOUTON *New*

A groundbreaking fancy yarn with an untamed appearance, with a volume and downiness reminiscent of the fleece of a sheep,

This is certainly one of our strong lines for this winter not only outstanding in terms of its performance but also for its pleasant, squashy feel, with which we can create warm, attractive garments that make us feel cosily wrapped up.

Moreover, it is worth highlighting that this yarn is fully machine-washable and suitable for all markets!

To promote this product in stores, we are designing a promotional kit, for customers who will buy minimal 6 kg, that will include 4 lovely little cardboard sheep that can be used as a fun way to display the volume and appearance of the ball. In addition, to demonstrate the product's performance and feel, clients will also be given a modern MAXI cowl made with 4 balls.

SOFT GRATTÉ *New*

A delicate, subtle basic yarn with a brushed appearance and a highly commercial composition and price, offering an indisputable alternative to the notable trend for yarns with a Mohair appearance.

The yarn is designed to ensure that nobody is left out of this recent trend, especially considering markets that reject Mohair because of its characteristics, which can sometimes irritate slightly sensitive skins.

80% Acrílico / Acrylique / Acrylic / Acryl / Acrilico / акрил / Akryli / Akryl / Ακρυλικό

TIBETAN *New*

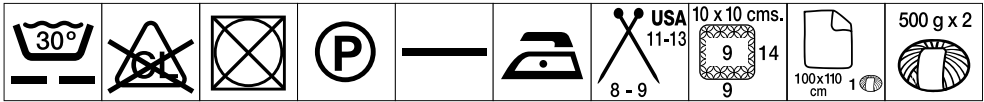

The latest in a long line of limited-edition yarns in a large format ball to continue consolidating the concept of 1 maxi ball = 1 garment.

In this case, it is a thick, lightly brushed multiple ply yarn with a unique pattern effect that gives a rustic appearance, ideally designed to give a splash of colour to our living rooms with original blankets that enhance the comfort of our sofa (dimensions: 1 m x 1.1 m)..

Each pack will include 2 leaflets with the description of the models (pullover and blanket).

PERLINE *New*

A glamorous fancy yarn with a chic appearance to give a subtle touch of elegance to our collection.

In this case, the yarn is based on the same structure and components as our VELOUR, but in a shorter version that has enabled us to reduce the weight of the yarn substantially, thereby optimizing its performance, as well as achieving an indescribable softness.

In view of its excellent features, this fancy yarn has been used in both the Women's and Baby magazines, on the front cover, reinforcing the high expectations that we have for the product.

A complex fancy yarn with a “filo d’aria” structure and a subtle sparkling effect, thanks to the inclusion of a thread of paillettes within the yarn, the internal cotton structure of which transforms it into a chic version of our popular COTTON MERINO. This is a fine, elegant version of this well-known yarn that boasts outstanding stability and comfort when knitting. With this yarn, we can create an endless collection of accessories, as well as fine, lightweight garments ideal for the first cooler days of autumn.

Customers who buy a certain volume of this yarn get a free knitted model (CPT 212).

SWEET FLEECE

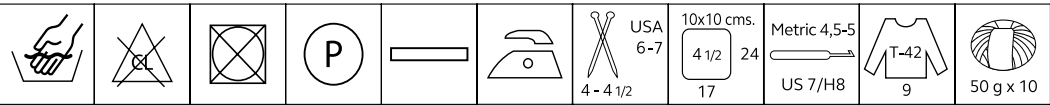

NEW

A basic yarn with a Merino Wool base that sets itself apart from all the other 100% wool basic yarns because of its superior quality, primarily due to the use of an exclusive 18-micron fibre. We reaffirm our commitment to sustainable, responsible production. With this in mind, this product is certified with the RWS seal (Responsible Wool Standard), the only accreditation currently available to guarantee the wellbeing of sheep and the standard of the land on which they graze

SOUSPIR **NEW**

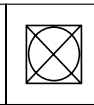

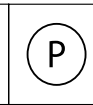

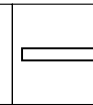

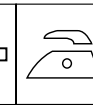

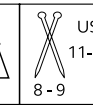

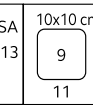

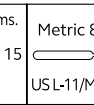

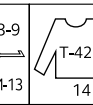

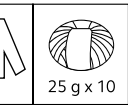

A tempting new addition to the “filo d’aria” family of yarns, which is remarkably light and easy to knit.

As an alternative to our best-selling consolidated COTTON MERINO, we have designed a yarn with the same structure, replacing the cotton base with a nylon thread that enables us to reduce the weight almost by half and optimize the performance of our garments. The difference in volume and performance of the yarn is such that the volume of a 25-gram ball of Souspir surpasses the 50-gram ball of its predecessor.

As if that weren’t enough, we have added 10% of our exclusive Angora fibre into the composition to make the marvellous feel of the product even softer.

64% Merino Extrafine (Lana / Laine / Wool / Wolle / Wol / Lã / шерсть / Villa / Ull / Μαλλι)
26% Poliamida / Polyamide / Polyamid / Poliammide / полиамид / Poliamidi / Πολυαμίδη

ALMA

NEW

A downy catenella yarn made from pure Extra-fine Merino wool with which we consolidate our status as leaders of multicoloured products.

Once again, this is a yarn with spectacular performance that lets us knit very quickly a countless selection of lightweight yet warm and robust garments, thanks to the volume and softness of the yarn.

Customers who buy a certain volume of this yarn get a free knitted model (CPT 208).

TRIBU

NEW

An extravagant fancy yarn with a wild appearance that gives a modern, groundbreaking effect to a yarn with a feel and look reminiscent of sheepskin.

Once again, we have designed a high-performance yarn, with a predominantly natural composition, to cater for the marked trend set to continue throughout 2020 for coats and short jackets with a brushed and/or Astrakhan appearance.

To emphasize the performance, each pack contains 5 leaflets with the description of a cowl (with circular needles) made with only 2 balls.

EDÉN

NEW

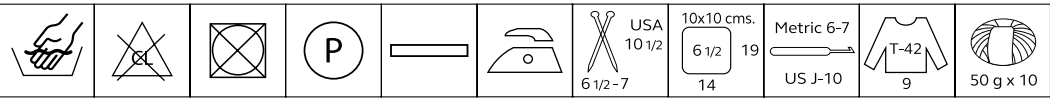

A sophisticated fancy yarn with a chic appearance to give an elegant touch to our Concept collection.

This yarn has an eye-catching structure and a subtle degrade effect that is striking on its own, without needing to worry about complicated and elaborate stitches. It will give our most festive garments a glamorous look, thanks to the silky effect of the Viscose.

Customers who buy a certain volume of this yarn get a free knitted model (CPT 209).

ALPAQUINA

NEW

A classic round yarn with a Super-fine Alpaca base that has undergone an innovative treatment that enables and guarantees the best possible care of our garments, being fully **machine-washable**. This represents the discovery of a treatment equivalent to Superwash for sheep’s wool, but for Alpaca in this case.

These innovative features make it a suitable yarn, both for socks and baby clothes, given the care and delicate treatment they require.

With a single ball of 100 grams, a baby garment can be made, the description of which can be found in the two posters supplied in the packs of colour 300.

75% Easy Wash Superfine Alpaca (Alpaga Superfine / Superfine Alpaca / Alpaca Superfine / Superfina Alpaca / супертонкая альпака / Superfine Alpakka / Superfine Alpacka / Μαλλί αλπακά πολύ λεπτό)

50 MOHAIR SHADES

A classic brushed yarn with a base of the best Mohair (Superkid) on the market, in an attractive and groundbreaking format.

This project has initially been designed to cater for the display and storage needs of a yarn that has become an authentic essential.

An introductory pack will be available for clients who want to showcase the entire colour range on a display stand that takes up just half a metre of counter space. This display, which will be delivered partially assembled, includes 2 spools of each of the 50 fantastic colours offered.

The sales format of this product is a cardboard box with five 20-gram spools (5x20 = 100 g) per color. In addition, this cardboard box will have a picture of a multicolor scarf on the front and back, made with 5 spools (that fit in the box), with the corresponding explanatory graph, so that it can be used as a “KIT” or as a sales unit to the consumer with the combination of colors that the consumer prefers.
