AUTUMN / WINTER 2022/2023

Katia Fabrics: Inspiring creativity

ES: Cottagecore ha tenido su auge en cómo pasar parte del tiempo en las cuarentenas. «Cottage» traduce «granja», y «Core» hace alusión al «punk hard core» de los 80's, pero en un sentido más literario que conceptual.

Hornear, alfarería, cuidar las plantas, volver a coser, leer, bordar, tejer y pintar son maneras agradables, relajantes y sanas de pasar tu tiempo cuando necesites un poco de calma y evasión en un mar de incertidumbre. Cottagecore nos conecta con una manera de vivir más sana y, tal vez, una visión nostálgica de unos tiempos más sencillos. Hecha más bonita y práctica, es una tendencia inspirada en la vida campestre. En esta colección, os presentamos tejidos simples, suaves, confortables y cálidos. Mezclamos estampados florales y afrutados con cuadros gingham y vichy. Un estilo que sin duda prolifera en las redes, pasarelas y calles.

Y es que, aunque el estilo de vida Cottagecore gira alrededor de un regreso a los hobbies más tradicionales y digitalmente desintoxicados, irónicamente su popularidad se ha disparado debido a las redes sociales y las plataformas como TikTok y Instagram. Cottagecore nos conduce hacia una moda más sostenible. En esta temporada os presentamos artículos que nos descubren los verdaderos colores del algodón natural sin tinter, algodones orgánicos, ecoviscosos y nuestra línea de recycled.

EN: Cottagecore had its high point when it came to how to spend time during lockdowns. «Cottage» alludes to country life, and «Core» to the centre of something, rather like «punk hard core» from the 80's, but in a more literary sense rather than a conceptual one.

Baking, pottery, caring for plants, returning to sewing, reading, embroidery, knitting, and painting are all enjoyable, relaxing and healthy ways to spend time when you need a little peace and to escape from a sea of uncertainty. Cottagecore connects us with a healthier way of living, and perhaps even a nostalgic view of simpler times. Made prettier and practical, it is a trend inspired by country life. In this collection we present you with simple, soft, comfortable and warm fabrics. We mix floral and fruity prints with gingham and Vichy checks. This is a style that is sure to grow on social networks, catwalks and the streets.

Although Cottagecore is about a return to more traditional hobbies and digital detoxification, ironically, its popularity has taken off because of social networks and online platforms like TikTok and Instagram. Cottagecore drives us towards a more sustainable fashion. This season we present you with products that reveal the true colours of natural undyed cotton, organic cottons, eco-viscose and our recycled linen.

DE: Cottagecore begann während der Quarantänen als Zeitvertreib sehr beliebt zu werden. „Cottage“ bedeutet „Landhaus“ und „core“ spielt auf den „Hardrock Core“ der 80er Jahre an, jedoch eher im literarischen als im konzeptuellen Sinn.

Backen, töpfern, Pflanzen pflegen, nähen, lesen, sticken und stricken sind angenehme, entspannende und gesunde Aktivitäten, wenn man zur Ruhe kommen und dem Meer der Unsicherheiten entfliehen möchte. Cottagecore verbindet uns mit einer gesünderen Lebensweise und einer womöglich nostalgischen Vision einfacherer Zeiten. Ein idyllischer und praktischer Trend, der am Landleben inspiriert ist. In dieser Kollektion präsentieren wir euch einfache, weiche, bequeme und warme Stoffe, auf denen wir Blumen- und Frucht-motive mit Gingham- bzw. Vichy-Karos kombiniert haben. Ein Stil, der in den Netzwerken sowie auf den Laufstegen und Straßen zunehmend präsent ist.

Denn obgleich der Cottagecore-Lebensstil eine Rückkehr zu traditionelleren und digital entgifteten Hobbys darstellt, ist ironischerweise seine Popularität dank der sozialen Netzwerke und Plattformen wie TikTok und Instagram in die Höhe geschossen. Cottagecore führt uns zu einer nachhaltigeren Mode. In dieser Saison präsentieren wir euch Artikel aus ungefärbter Naturbaumwolle, organischer Baumwolle und Bio-Viskose sowie aus unserer Recycled-Linie.

IT: Il Cottagecore ha avuto il suo apice quando si è trascorso parte del tempo in quarantena. “Cottage” significa “fattoria”, e “Core” allude all’ “hard core punk” degli anni ‘80, ma in un senso più letterario che concettuale.

Cucinare, lavorare la ceramica, prendersi cura delle piante, cucire, leggere, ricamare, lavorare a maglia e dipingere sono modi piacevoli, rilassanti e salutari per trascorrere il proprio tempo quando si ha bisogno di un po' di calma e di evadere in un mare di incertezza. Il Cottagecore ci collega con un modo di vivere più sano e, forse, una visione nostalgica di tempi più semplici. Reso più bello e pratico, è un trend ispirato alla vita di campagna. In questa collezione vi presentiamo tessuti semplici, morbidi, comodi e caldi. Mescoliamo stampe floreali e di frutti con quadretti Vichy. Uno stile che indubbiamente prolifera nelle reti, nelle passerelle e nelle strade.

Sebbene lo stile di vita Cottagecore ruoti attorno a un ritorno a hobby più tradizionali e digitalmente disintossicati, ironia della sorte la sua popolarità è salita alle stelle grazie ai social media e piattaforme come TikTok e Instagram. Il Cottagecore ci guida verso una moda più sostenibile. Questa stagione presentiamo articoli che rivelano i veri colori del cotone naturale non tinto, del cotone biologico, dell'eco-viscosa e della nostra linea riciclata.

Katia Fabrics: Inspiring creativity

FR: Le Cottagecore est une façon de passer notre temps libre qui a pris toute son ampleur pendant les différents confinements. «Cottage» signifie «ferme» et «Core» est une référence au «punk hard core» des années 80, mais dans un sens plus littéraire que conceptuel.

Cuisiner, faire de la poterie, prendre soin des plantes, coudre, lire, broder, tricoter et peindre sont des activités agréables, apaisantes et saines pour votre temps libre, surtout quand vous avez besoin d'un peu de tranquillité et de vous évader d'un monde incertain. Cottagecore nous permet de connecter avec un mode de vie plus sain. Mais c'est aussi une vision un peu nostalgique d'une époque qui nous paraît plus simple. Dans la pratique, c'est une tendance qui puise son inspiration dans la vie champêtre. Avec cette collection, nous vous présentons des tissus simples, doux, confortables et chauds. Nous mélangeons les motifs floraux et fruités avec les carreaux gingham et vichy. Un style que l'on retrouve beaucoup sur les réseaux sociaux, les défilés et dans la rue.

Bien que le mode de vie Cottagecore se tourne vers les hobbies les plus traditionnels et éloignés du monde numérique, c'est grâce aux réseaux sociaux et plateformes tels que Tiktok et Instagram que ce mouvement a pris de l'ampleur. Le Cottagecore nous invite à vivre une mode plus écoresponsable. Cette saison, nous vous présentons des articles grâce auxquels vous découvrirez les authentiques couleurs du coton naturel non teint, les cotons bio, les écoviscoses et notre ligne de recycled.

NL: Cottagecore is een geliefde tijdsbesteding geworden tijdens de lockdown als een manier om een deel van de tijd door te brengen. "Cottage" betekent "boerderij" en "Core" verwijst naar de "hardcore punk" van de jaren 80, maar in een meer literaire dan conceptuele zin.

Bakken, pottenbakken, planten verzorgen, naaien, lezen, borduren, breien, schilderen en kleien zijn plezierige, ontspannende en gezonde manieren om je tijd door te brengen als je een beetje rust nodig hebt en even wilt ontsnappen in een zee van onzekerheid. Cottagecore verbindt ons met een gezondere manier van leven en misschien een nostalgische visie op eenvoudigere tijden.

Het is een trend die geïnspireerd is op het plattelandleven, maar verfraaid en praktischer gemaakt. In deze collectie presenteren wij eenvoudige, zachte, comfortabele en warme stoffen. We mixen bloemen- en fruitprints met gingham- en vichyruiten. Een stijl die zich ongetwijfeld op de netwerken, catwalks en straten verspreidt.

Hoewel de levensstijl van Cottagecore draait om een terugkeer naar meer traditionele en niet digitale hobby's, is de populariteit ervan ironisch genoeg enorm gestegen dankzij sociale media en platforms als TikTok en Instagram. Cottagecore leidt ons naar een duurzamere mode. Dit seizoen presenteren wij artikelen die de ware kleuren onthullen van natuurlijk ongeverfd katoen, biologisch katoen, eco-viscose en onze gerecyclede lijn.

ES: POPLIN ANTIBACTERIAN con tratamiento biocida y waterproof/resistente al agua. Estos dos tratamientos convierten este poplin de tejido 100% algodón adecuado para mascarillas higiénicas y reutilizables, pues al ser hidrófugo repele el paso de gotas de saliva y gracias al tratamiento Biocida ayuda a neutralizar las bacterias.

EN: ANTIBACTERIAL POPLIN with both a biocide and a water-repellent finish. These two treatments convert this 100% cotton into a fabric suitable for making face masks because the waterproof finish repels the absorption of saliva droplets and the biocide finish helps to neutralize bacteria.

DE: POPLIN ANTIBACTERIAN mit biozider und waterproof/wasserdichter Behandlung. Dank dieser beiden Behandlungen ist dieser Popeline aus 100% Baumwolle für Mundschutzmasken geeignet. Da er wasserabweisend ist, wird das Versprühen von Speicheltropfen verhindert und die Biozidbehandlung unterstützt die Neutralisierung von Bakterien.

IT: POPELINE ANTIBATTERICO con trattamento biocida e impermeabile / Idrorepellente. Questi due trattamenti convertono questo tessuto popeline in cotone 100% adatto per mascherine, poiché essendo idrorepellente respinge il passaggio delle gocce di saliva e grazie al trattamento biocide aiuta a neutralizzare i batteri.

FR: POPLIN ANTIBACTERIAN à traitement biocide et waterproof/résistant à l'eau. Ces deux traitements rendent cette popeline 100 % coton apte à la confection de masques de protection, puisque son caractère hydrofuge bloque le passage des gouttelettes de salive et que le traitement biocide contribue à neutraliser les bactéries.

NE: POPLIN ANTIBACTERIAN met een behandeling van biocide en waterproof / waterdichte behandeling. Deze twee behandelingen zorgen dat deze popeline van 100% katoenstof geschikt is voor MASKERS, omdat het waterafstotend is en de doorgang van speekseldruppels afstoot en dankzij de behandeling met biociden helpt om de bacteriën te neutraliseren.

ES: El Lyocell es un producto biodegradable. Su fabricación no produce subproductos nocivos para la salud o el planeta, mientras que la celulosa, su ingrediente principal, se obtiene de granjas sostenibles. Los tejidos de Lyocell tiene una superficie muy suave, son ligeros y cómodos. Son muy elásticos y duraderos. Además, son excelentes para pieles sensibles. Incorporado al muestrario de invierno con un único tono de azul indigo, el básico azul jeans

EN: Lyocell is a biodegradable product. Its manufacturing process does not produce any waste products that are harmful to health or the planet. The cellulose, its principal fibre content, is obtained from sustainable farms. Lyocell fabrics have a very soft surface handle and are both lightweight and comfortable to wear. They are very elastic and hard wearing. Furthermore, they are excellent for sensitive skins. Incorporated into the winter sample book in one shade of indigo blue, the basic jeans colour.

DE: Lyocell ist ein biologisch abbaubares Produkt. Bei seiner Herstellung entstehen keine gesundheits- oder umweltschädlichen Nebenprodukte, und der Hauptbestandteil Zellulose stammt aus nachhaltiger Landwirtschaft. Lyocell-Gewebe hat eine sehr weiche Oberfläche, ist leicht und bequem sowie äußerst elastisch und haltbar. Außerdem eignet es sich hervorragend für empfindliche Haut. Es wurde mit dem Farbton Indigoblau, dem Basic-Jeansblau, in die Winterkollektion aufgenommen.

IT: Il Lyocell è un prodotto biodegradabile. La sua fabbricazione non produce sottoprodotti nocivi per la salute o per il pianeta, mentre la cellulosa, suo ingrediente principale, si ottiene da allevamenti sostenibili. I tessuti Lyocell hanno una superficie molto morbida, sono leggeri e comodi. Sono molto elastici e duraturi. Inoltre, sono eccellenti per le pelli sensibili. Nel campionario invernale con un unico tono in blu indaco, il blue jeans di base.

FR: Le Lyocell est un produit biodégradable. Sa production n'entraîne pas la création de sous-produits qui nuisent à la santé ni à l'environnement. De plus, la cellulose qui est l'ingrédient principal de ce tissu, provient de producteurs contrôlés. Les tissus en Lyocell sont doux, légers et confortables. Ils sont élastiques et durables. Ils sont également parfaits pour les peaux sensibles. Nous l'avons ajouté à notre catalogue hiver dans un ton bleu indigo unique, le bleu jean classique.

NL: Lyocell is een biologisch afbreekbaar product. De productie ervan veroorzaakt geen elementen die schadelijk zijn voor de gezondheid of de planeet, terwijl cellulose, het belangrijkste ingrediënt, wordt verkregen van duurzame boerderijen. Lyocell-stoffen hebben een zeer zacht oppervlak en zijn licht en comfortabel. Ze zijn heel elastisch en duurzaam. Bovendien zijn ze uitermate geschikt voor de gevoelige huid. Opgenomen in de Winter staalkaart met één enkele tint indigoblauw, de basistint jeansblauw.

ES: A resaltar que, al tratarse de un tejido de doble tela, obtenemos en el MOUSSELINE VICHY un efecto de doble faz. La cara exterior del tejido es de cuadros, mientras su cara interior es monocolor.

EN: As this is a double cloth fabric, MOUSSELINE VICHY gives us double-sided effect. The outer side is the gingham design, while the other side is just a single colour.

DE: Zu betonen ist, dass wir mit MOUSSELINE VICHY einen doppelseitigen Effekt erhalten, da es sich um ein Doppelgewebe handelt. Die Außenseite des Stoffes ist kariert, während die Innenseite einfarbig ist, und zwar in nur einer der beiden Farben.

IT: Da notare che, essendo un tessuto a doppio strato, otteniamo nel MOUSSELINE VICHY un effetto double face. La faccia esterna del tessuto è composta da quadri, mentre la parte interna è monocolor.

FR: Soulignons que, s'agissant d'un tissu double, le MOUSSELINE VICHY est double-face. L'extérieur est à carreaux tandis que l'intérieur est uni et reprend le ton le plus vif des deux couleurs des carreaux.

ES: Como su nombre indica, se trata de un artículo de "doble faz" en tejido de mousseline de doble capa. Tejido por tanto reversible, pudiendo utilizarlo por la cara del cuadro Vichy grande o por la cara del cuadrito Vichy pequeño o combinar ambos tamaños de cuadro en el diseño de las prendas a realizar.

EN: As its name indicates, it is a "double-faced" article in a double-layer mousseline fabric. As a result, this is a reversible fabric which can be used on the side with the large Vichy check or on the side with the small Vichy check or a combination of both check sizes in the same garment.

DE: Wie der Name schon sagt, handelt es sich um einen doppelseitigen Stoff aus doppelagigem Mousseline-Gewebe. Es ist also ein Wendestoff und es kann sowohl die Seite mit den großen als auch die Seite mit den kleinen Vichy-Karos verwendet werden, oder beide Karo-Größen lassen sich bei einem Kleidungsstück kombinieren.

IT: Come suggerisce il nome, si tratta di un capo "double face" in tessuto mussolina doppio strato. Tessuto quindi reversibile, è possibile utilizzarlo sul lato dei quadri Vichy grandi o sul lato dei quadri Vichy piccolo oppure combinare entrambe le taglie di quadri nel disegno dei capi da realizzare.

FR: Comme son nom l'indique, il s'agit d'un tissu double face, en mousseline de double gaze. Un tissu réversible, que l'on peut utiliser du côté du Vichy à grands carreaux ou du côté du Vichy à petits carreaux ou même combiner les deux tailles de carreaux pour la confection d'un même vêtement.

NL: Zoals de naam al doet vermoeden, is het een "double-faced" item in dubbellaagse mousseline-stof. Dus omkeerbare stof, te gebruiken aan de kant van de grote Vichy ruit of aan de kant van de kleine Vichy ruit of om beide maten ruit te combineren in het ontwerp van de te maken kledingstukken.

ES: Tejido de pana de género de punto circular. El hecho que sea una pana de punto y además con un 5% de elastómero, le proporciona una excelente elasticidad bidimensional para que las prendas confeccionadas con nuestro nuevo KNIT CORDUROY ofrezcan un alto grado de confort al uso.

EN: Knit corduroy fabric. The fact that it is a knitted corduroy that also contains 5% elastomer gives the fabric a two-dimensional elasticity, so that garments made from our new KNIT CORDUROY offer a high degree of comfort when used.

DE: Neuen Artikel aus Cord-Rundstrickstoff. Der Strickcord mit 5 %igem Elastan-Anteil verleiht diesem Stoff eine ausgezeichnete zweidimensionale Elastizität, die den mit unserem neuen KNIT CORDUROY angefertigten Kleidungsstücken einen hohen Tragekomfort verleiht.

IT: Tessuto in velluto a coste. Il fatto che sia un velluto a coste con il 5% di elastan, ha una eccellente elasticità bidimensionale in modo che i capi confezionati con il nostro nuovo KNIT CORDUROY possano offrire un ottimo confort.

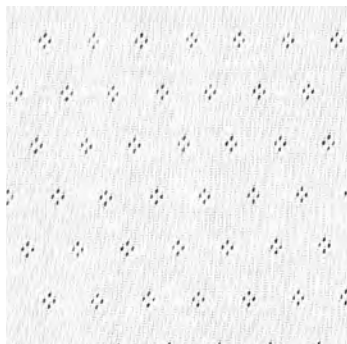

FR: C'est un jersey à côtes tubulaire. Le KNIT CORDUROY, jersey à côtes avec 5 % d'élasthanne, présente une excellente bi-élasticité idéale pour confectionner des vêtements très confortables à porter.

NL: Tricot corduroy stof voor kinderkleding. Het feit dat deze tricot corduroy stof is en bovendien 5% elastomeer bevat, zorgt voor een tweedimensionale elasticiteit, zodat de kleding die gemaakt is met onze nieuwe KNIT CORDUROY een hoge mate van draagcomfort heeft.

ES: Artículo de género de punto circular de punto interlock con pequeños motivos jacquard por técnica de desagujado. El interlock es un tejido de punto de doble fontura en el que trabajan todas las agujas. Tiene por tanto mayor densidad que el punto jersey, una gran elasticidad y especialmente una mayor estabilidad dimensional, lo que facilita mucho la confección de prendas al utilizar tejido de punto interlock. Artículo especialmente diseñado para prendas de bebé, prendas suaves, cálidas y muy confortables.

EN: Interlock is a double-needle knit fabric in which all the needles are in work. It therefore has a higher density than jersey knit, great elasticity and above all a greater dimensional stability which makes it much easier to sew garments when using these interlock knit fabrics. Article specially designed for baby garments and soft, warm and very comfortable clothing.

DE: Mit Interlocktechnik hergestellte Rundstrickware mit kleinen Jacquard-Motiven. Interlock ist eine Doppelstricktechnik, bei der die einzelnen Fäden miteinander gewirkt werden. Es weist daher eine höhere Dichte als Jersey, eine hohe Elastizität und vor allem eine höhere Dimensionsstabilität auf, was die Herstellung von Kleidungsstücken erheblich erleichtert. Speziell entwickelt für weiche, warme und sehr bequeme Babykleidung.

IT: Tessuto a maglia circolare interlock con piccoli motivi jacquard. L'interlock è un tessuto a maglia lavorato con tutti gli aghi. Ha quindi una densità maggiore rispetto al jersey, una grande elasticità e soprattutto una maggiore stabilità dimensionale, il che rende molto più facile la realizzazione dei capi. Articolo appositamente studiato per i capi da neonato, capi morbidi, caldi e molto confortevoli.

FR: Tissu interlock circulaire désaiguillé aux petits imprimés jacquard. L'interlock est un tissu en jersey à double épaisseur. Plus dense que le tissu jersey, c'est un tissu très élastique et ayant une grande stabilité dimensionnelle, ce qui facilite la confection des vêtements. Un article spécialement créé pour les vêtements de bébé, des vêtements doux, chauds et confortables.

NL: Rondgebreid interlock artikel met kleine jacquardmotieven. Interlock is een dubbelnaalds gebreide stof waarin alle naalden werken. Het heeft daarom een hogere dichtheid dan de tricôtstof, een grote elasticiteit en vooral een grotere maatvastheid, wat het veel gemakkelijker maakt om kledingstukken te maken bij gebruik van deze interlock-gebreide stof. Artikel speciaal ontworpen voor babykleding, zachte, warme en zeer comfortabele kleding.

ES: Artículo nuevo, un terciopelo de género de punto de algodón, ya que el porcentaje de poliéster de su composición solo actúa como soporte del terciopelo y solo es perceptible por su cara interior. Es un tejido de terciopelo para prendas de vestir, dúctil y elástico, para prendas muy confortables.

EN: New cotton knit velvet article. The percentage of polyester in the composition only acts as a support to the velvet and is only noticeable on the inner face of the fabric. This is a velvet fabric suitable for occasion clothing and more comfortable clothing thanks to its pliability and elasticity.

DE: Neuer Artikel, ein Baumwollsam-Strickstoff, da der Polyesteranteil in seiner Zusammensetzung nur als Unterlage für den Samt dient und nur auf der Innenseite erkennbar ist. Dehnbarer und elastischer Samtstoff für sehr bequeme Kleidungsstücke.

IT: Articolo nuovo, un velluto in cui la percentuale di poliestere della sua composizione funge solo da supporto per il velluto stesso ed è percepibile solo sul lato interno. È un tessuto in velluto per capi da indossare, duttile ed elastico, per capi molto confortevoli.

FR: Nouvel article, un velours sur jersey en coton car le pourcentage de polyester de sa composition sert uniquement de support au velours et se ressent seulement sur la face intérieure. Il s'agit d'un velours souple et élastique, idéal pour la confection de vêtements très confortables.

NL: Nieuw artikel, een fluweel van katoenen tricôt, aangezien het percentage polyester in de samenstelling alléén als ondersteuning dient van het fluweel en enkel zichtbaar is aan de binnenkant. Het is een fluwelen stof, die ideaal is voor elastische en heel comfortabele kledingstukken.

12.1.1

ES: Tejido de género de punto circular, ligeramente perchado por su cara externa para conseguir un tejido de un tacto suave excepcional. A resaltar, como valor añadido al artículo, su etiquetado como GLOBAL RECYCLED STANDARD que garantiza a éste como artículo reciclado.

EN: Circular knit fabric, slightly brushed on its outer side to achieve a fabric with an exceptional, soft feel. As an added value of the product, it should be highlighted that the product has been awarded the GLOBAL RECYCLED STANDARD certification, which guarantees it is a recycled product.

DE: Außenseite leicht aufgerauten Rundstrickstoff vorstellen zu können, der sich außergewöhnlich weich anfühlt. Ein weiteres Verkaufsargument ist seine Zertifizierung mit dem GLOBAL RECYCLED STANDARD, der garantiert, dass es sich um ein recyceltes Produkt handelt.

IT: Questo è leggermente nappato sul lato esterno per poter ottenere un tessuto dalla morbidezza al tatto eccezionale. Da evidenziare, come valore aggiunto dell'articolo, la sua certificazione GLOBAL RECYCLED STANDARD che garantisce come questo articolo sia effettivamente riciclato.

FR: Jersey tubulaire, légèrement gratté sur la face externe, ce qui donne un tissu d'une douceur exceptionnelle. Soulignons en outre que cet article porte l'étiquette GLOBAL RECYCLED STANDARD garantissant qu'il s'agit d'un tissu recyclé.

NL: Tricot stof, licht geruwd aan de buitenkant, waardoor het buitengewoon zacht aanvoelt. Als toegevoegde waarde bij het artikel kan worden benadrukt dat het als GLOBAL RECYCLED STANDARD is geëtiketteerd, waarmee gegarandeerd wordt dat het een gerecycled artikel betreft.

ES: Tejido de género de punto circular con un ligero perchado por su cara externa que lo dota de una gran suavidad. Además de su propia elasticidad por ser un tejido de punto, el 3% de Elastómero en su composición le confiere aún un mayor grado de confort y de estabilidad dimensional.

EN: Circular knit fabric with a lightly brushed outer side that makes it extremely soft. As well as having the natural elasticity of a knitted fabric, the 3% Elastomer in its composition gives it an even greater degree of comfort and dimensional stability.

DE: Rundstrickware, an der Außenseite leicht angeraut, was sie sehr weich macht. Zusätzlich zu seiner eigenen Elastizität als Strickware verleiht der Elastomer-Anteil von 3 % in seiner Zusammensetzung dem Artikel ein noch höheres Maß an Komfort und Formstabilität.

IT: Tessuto a maglia circolare con un leggero felpato sul lato esterno che dona una grande morbidezza. Oltre alla propria elasticità data dalla tessitura a maglia, il 3 % di Elastan conferisce maggior comfort e stabilità.

FR: Jersey tubulaire, à l'aspect légèrement gratté sur sa face externe, ce qui le dote d'une grande douceur. Ce tissu extensible, puisqu'il est en mailles, contient en outre 3 % d'élastomère pour une stabilité dimensionnelle et un confort accru.

NL: Rondgebreide, aan de buitenkant licht geruwde tricot, waardoor de stof erg zacht aanvoelt. Naast de elasticiteit van tricot, zorgt de 3% elastomeer in de samenstelling voor een nog groter draagcomfort en meer dimensionale stabiliteit.

ES: Comúnmente llamado “plástico alimentario”, se utiliza especialmente para bolsas que tengan que contener alimentos, para envoltorios de alimentación y sobre todo como forro de bolsas para el bocadillo de desayuno o de merienda de los niños. También como forro de neveras o de fiambreras y para todo aquello alimentario que se quiera proteger de la humedad o del agua dado que el EAT&SEW es totalmente impermeable.

EN: Commonly known as “food plastic”, it is generally used for bags that contain food items, for food packaging, and above all, as a lining for sandwiches or kid’s snack bags. It is also used to line refrigerators or lunch boxes and all food types that need protecting from humidity or water, given that EAT&SEW is totally waterproof.

DE: Im Allgemeinen als „Lebensmittelkunststoff“ bezeichnet, wird er insbesondere für Beutel verwendet, die Lebensmittel enthalten müssen, für Lebensmittelverpackungen und insbesondere als Auskleidung von Beuteln für Butterbrote oder Snacks für Kinder. Er wird auch als Verkleidung von Kühlboxen oder Brotdosen und für alle Lebensmittel, die vor Feuchtigkeit oder Wasser geschützt werden sollen, verwendet, da das EAT&SEW absolut wasserdicht ist.

IT: Conosciuto comunemente come “plastica per alimenti”, viene utilizzato soprattutto per i sacchetti che devono contenere alimenti, come confezione per alimenti e molto spesso come involucro per i panini di colazione dei bambini. Si usa anche come rivestimento per il frigorifero o le scatole di pranzo o anche come protezione degli alimenti contro l’umidità, poiché EAT&SEW è totalmente impermeabile.

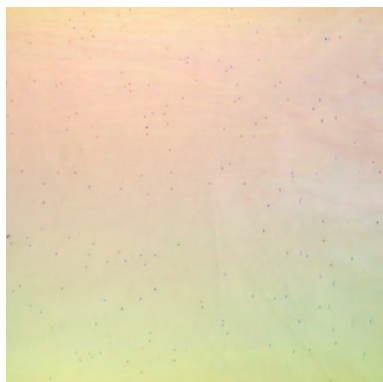

FR: Familièrement appelé « plastique alimentaire », ce matériau est utilisé pour former des sachets contenant des aliments, pour emballer les aliments et, surtout, pour doubler les sacs à casse-croûte et à goûter des enfants. Il sert aussi pour doubler les glacières et gamelles et pour tous les usages alimentaires où l’on recherche une protection contre l’humidité et l’eau puisque EAT&SEW est totalement imperméable.

NL: Gewoonlijk “voedselplastic” genoemd, wordt het vooral gebruikt voor zakken die voedsel moeten bevatten, voor voedselverpakkingen en vooral als een voering van zakken voor ontbijt of snacks voor kinderen. Ook als voering voor koelkasten of lunchboxen en voor al het voedsel dat tegen vocht of water moet worden beschermd, omdat de EAT & SEW volledig waterdicht is.

ES: JEANS RECYCLED CANVAS es un tejido de sarga hecha con jeans reciclados postconsumo, es decir, productos textiles desechados (en este caso jeans) que ya no se pueden usar para el propósito para el que fueron destinados. Reutilizamos esta fibra, que mezclada con otras fibras orgánicas, permiten obtener el hilo con el que se teje el JEANS RECYCLED CANVAS, para obtener un nuevo tejido a partir de prendas desechadas. **Por cada metro de JEANS RECYCLED CANVAS reciclamos un par de jeans.** El nuevo JEANS RECYCLED CANVAS es un tejido sostenible, certificado como 72% GRS (Global Recycled Standard) y es ideal para productos de decoración como cojines, manteles, complementos de hogar y también para bolsos, mochilas y sacos.

EN: JEANS RECYCLED CANVAS is a twill type fabric made from post-consumer jeans, meaning discarded textile products (in this case jeans) that can no longer be used for the purpose for which they were intended. We reutilize this fibre and blend it with other organic fibres to create the yarn with which JEANS RECYCLED CANVAS is made. As a result, we obtain a new fabric made from discarded clothing. **For each metre of JEANS RECYCLED CANVAS we recycle one pair of jeans.** The new JEANS RECYCLED CANVAS is a sustainable fabric, certified as 72% GRS (Global Recycled Standard) and ideal for making decorative items like cushions, tablecloths, home accessories as well as bags and backpacks.

DE: JEANS RECYCLED CANVAS ist ein Sergegewebe, das aus recycelten Post-Consumer-Jeans hergestellt wird, d. h. aus ausrangierten Textilprodukten (in diesem Fall Jeans), die sich nicht mehr für ihren ursprünglichen Zweck benutzen lassen. Wir verwenden diese Faser wieder und mischen sie mit anderen organischen Fasern. Daraus werden die JEANS RECYCLED CANVAS gemacht, und so erhalten wir aus ausgedienten Kleidungsstücken einen neuen Stoff. **Für jeden Meter JEANS RECYCLED CANVAS recyceln wir eine Jeans.** Der neue JEANS RECYCLED CANVAS ist ein nachhaltiger Stoff, der mit 72 % GRS (Global Recycled Standard) zertifiziert ist und sich ausgezeichnet für Dekoartikel wie Kissen, Tischdecken, Wohnaccessoires und auch für Taschen und Rucksäcke eignet.

IT: JEANS RECYCLED CANVAS è un tessuto twill realizzato con jeans riciclati post-consumo, ovvero prodotti tessili di scarto (in questo caso jeans) che non possono più essere utilizzati per lo scopo previsto. Riutilizziamo questa fibra, che, mescolata ad altre fibre organiche, ci permette di ottenere il filo con cui viene tessuto il JEANS RECYCLED CANVAS per ottenere un nuovo tessuto da capi di scarto. **Per ogni metro di JEANS RECYCLED CANVAS ricicliamo un paio di jeans.** Il nuovo RECYCLED CANVAS JEANS è un tessuto sostenibile, certificato 72% GRS (Global Recycled Standard) ed è ideale per prodotti come cuscini, tovaglie, accessori per la casa e anche per borse, zaini e sacche.

FR: Le JEANS RECYCLED CANVAS est un tissu sergé fabriqué à partir de jeans recyclés post-consommation, c'est-à-dire de produits textiles mis au rebut car usés (en l'occurrence des jeans) et qui sont devenus inutilisables. Mélangée à d'autres fibres organiques, la fibre est réutilisée pour obtenir le fil employé pour tisser le JEANS RECYCLED CANVAS, nouveau tissu à base de vêtements usés. **Pour chaque mètre de JEANS RECYCLED CANVAS, un jean est recyclé.** En conséquence de quoi, le nouveau JEANS RECYCLED CANVAS est un tissu durable, certifié comme 72 % GRS, idéal pour la déco de la maison, avec les coussins, nappes, accessoires de maison, mais aussi les sacs, sacs-à-dos et autres.

NL: JEANS RECYCLED CANVAS is een keperstof gemaakt van post-consumer gerecyclede jeans, dat wil zeggen afgedankte textielproducten (in dit geval jeans) die niet langer kunnen worden gebruikt voor het beoogde doel. We hergebruiken deze vezel, die, gemengd met andere organische vezels, ons in staat stelt de draad te verkrijgen waarmee RECYCLED CANVAS JEANS is geweven, om een nieuwe stof te verkrijgen van afgedankte kledingstukken. **Voor elke meter JEANS RECYCLED CANVAS recycelen we een spijkerbroek.** De nieuwe RECYCLED CANVAS JEANS is een duurzame stof, gecertificeerd als 72% GRS (Global Recycled Standard) en is ideaal voor decoratieproducten zoals kussens, tafelkleden, woonaccessoires en ook voor tassen, rugzakken en zakken.

Cottagecore COLLECTION

Cottagecore ha tenido su auge en cómo pasar parte del tiempo en las cuarentenas. «Cottage» traduce «granja», y «Core» hace alusión al «punk hard core» de los 80's, pero en un sentido más literario que conceptual.

Hornear, alfarería, cuidar las plantas, volver a coser, leer, bordar, tejer y pintar son maneras agradables, relajantes y sanas de pasar tu tiempo cuando necesites un poco de calma y evasión en un mar de incertidumbre. Cottagecore nos conecta con una manera de vivir más sana y, tal vez, una visión nostálgica de unos tiempos más sencillos. Hecha más bonita y práctica, es una tendencia inspirada en la vida campestre. En esta colección, os presentamos tejidos simples, suaves, confortables y cálidos. Mezclamos estampados florales y afrutados con cuadros gingham y vichy. Un estilo que sin duda prolifera en las redes, pasarelas y calles.

Y es que, aunque el estilo de vida Cottagecore gira alrededor de un regreso a los hobbies más tradicionales y digitalmente desintoxicados, irónicamente su popularidad se ha disparado debido a las redes sociales y las plataformas como TikTok y Instagram.

Cottagecore nos conduce hacia una moda más sostenible. En esta temporada os presentamos artículos que nos descubren los verdaderos colores del algodón natural sin tinter, algodones orgánicos, ecoviscosas y nuestra línea de recycled.

En nuestra revista encontrarás patrones Cottagecore: prendas que son sobre todo cómodas, mezclando homewear y sport pero sin perder las formas bucólicas, los vestidos holgados y largos, volantes, camisas de botones y los pantalones camperos.

Las telas de la revista Katia Fabrics están diseñadas por el equipo de Katia Fabrics.

Cottagecore had its high point when it came to how to spend time during lockdowns. «Cottage» alludes to country life, and «Core» to the centre of something, rather like «punk hard core» from the 80's, but in a more literary sense rather than a conceptual one.

Baking, pottery, caring for plants, returning to sewing, reading, embroidery, knitting, and painting are all enjoyable, relaxing and healthy ways to spend time when you need a little peace and to escape from a sea of uncertainty. Cottagecore connects us with a healthier way of living, and perhaps even a nostalgic view of simpler times. Made prettier and practical, it is a trend inspired by country life. In this collection we present you with simple, soft, comfortable and warm fabrics. We mix floral and fruity prints with gingham and Vichy checks. This is a style that is sure to grow on social networks, catwalks and the streets.

Although Cottagecore is about a return to more traditional hobbies and digital detoxification, ironically, its popularity has taken off because of social networks and online platforms like TikTok and Instagram.

Cottagecore drives us towards a more sustainable fashion. This season we present you with products that reveal the true colours of natural undyed cotton, organic cottons, eco-viscose and our recycled linen.

In our magazine you will find the Cottagecore patterns: garments that are, above all, comfortable to wear by mixing homewear and sport together, but without losing their bucolic form like long, loose dresses, frills, button through blouses and country style trousers.

The prints in the Katia Fabrics magazine are designed by the Katia Fabrics team.
