SPRING COLLECTIONS

Stamperia

2020

2020 will be a year full of new ideas, changes, renewal, both material and spiritual. Our Creative Team have the antennas and capture these hints in the air and materialize them into fantastic creations, full of meaning. Papers, stencils, moulds, pigments and waxes for you to loose yourself in creativity. Each Collection is a genre in itself, a world to discover, follow our Social Networks to learn more about techniques, ideas and the Creative Team.

Monica Aziza Harrara

by Cristina Radovan

After the great approval of the Cosmos public, Cristina for her new album still turns to Nature, in particular to the woods with its creatures. She opens a new world with an attitude of amazement and gratitude for the harmony of creation, for the forces present in the trees, in the leaves, in the water and in the animals. Sacred geometry is the invisible design par excellence. It is the secret of Nature which with its strength transmits us balance, trust, wisdom and bonds us together in the Whole beyond appearances.

A work of art, this is all about this Collection. On the edge of creativity, life is art and art is life, nature is art and so is being yourself, as you are, your thoughts, the world around You, a room can be a universe, layers after layers of its decorated walls. We get lost in the colours of the album, in its shapes, surprising page by page, let it go, just Imagine....

by Tatiana Antonicelli

Here are other creations by Tatiana, cute and tender to create sweet memories of our children.

by Antonis Tzanidakis

Antonis is in constant exploration, now under the sea, in an endless research. For Antonis the journey is the destination itself. He is looking for the principle or the mechanism that makes the world turn, the waves move. Keeping on looking he found wrecks, creatures and a mermaid or a woman? We will never know but Antonis can listen to her, she tells stories and secrets that only the sea knows. Let's dive with Antonis in the deep ocean of creativity and forget about the rest.

Le tele di Monica

by Monica Paruta

The subject of new Monica's Collection is sensuality, learn how to decorate portraits with pigments and pastes.

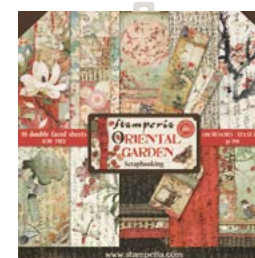

Of all flowers the rose is the One. In the petals the secret of her life. From a delicate bud, young and full of hopes to the maturity of blossomed jewel. The best of its essences is its fragrance. In this album the painter captured the moments of the Roses to gift us with its delicacy.

Cartonnage con Arte

by Sara Alcobendas

Creativity combined with rigor, study and experience, this is the fruit of Sara's work. For years she taught to build In Cartonnage creations to thousands of students and now here is her first Collection of objects in Cartonnage made it easy. Soon others will follow.

For our fans we have created new products matching the most popular Stamperia lines.

Ahora, observa. Vamos a reproducir la misma forma. Vamos a reproducir la misma forma de vino o pelotas de vino. Vamos a reproducir la misma forma que da origen al trabajo y al trabajo.

Vintage Antiquing Paste
170 ml - Brown

KAOLBR

The signature technique of Antonis Tzanidakis is not anymore a secret. Antonis has made his own product to reproduce the characteristic touch of all his creations. The Vintage Antiquing Paste can be used on any surface. Only after sealing the finished work with a layer of Mixed Media Glue you can proceed with antiquing. Spread a generous layer of the Vintage Antiquing Paste and then swipe it off with a wet tissue. Let it dry. You can use this technique on Rice Paper or Scrapbooking Paper, Soft Clay, Stencils, Pastes and any other surface. See the tutorial video on You Tube.

Cartonnage con Arte

by Sara Alcobendas

**NEW
PRODUCT**

Cartonnage is a very ancient technique for making boxes and books. It consists in assembling the cartons cuts and cover them with paper or other textile.

Stamperia made its first Cartonnage line with Sara Alcobendas, an expert in this field.

Each kit contains the already cut cardboard to assemble. The cardboard is hard and strong, it is 300 grs, it can be painted and glued.

Video tutorials are available on You tube for each of the 5 projects.

All you need is to choose the kit you like and your favourite paper. The quality of the Stamperia scrapbooking paper in this project is very important. It is printed on 190 gr Fabriano paper, very rich in fibers, it doesn't lose shape even when heavily wet with water or glue.

New Techniques

Glamour Pastes

Glamour Paste is soft in colours and texture thanks to the combination of micro grains powder and shiny mica. It is suitable for the technique of Texture Impression with A5 moulds.

Glamour Pigments

The Pigments can be combined with any medium. The Fluid Gloss Medium is the most suitable for painting and stencilling on porous surfaces. If mixed with solvent based mediums like the Antiquing Medium they can be used also on glass, metal and plastic.

Glamour Sparkles

The ultimate glitters, the special cut of this glitters enhance the sparkling effect. They can be fixed with Extra Gloss finish to add even more of the shiny effect.

Waxes Cerantica

Cerantica wax is a product based on real beeswax and very fine pigments. It is a covering colour and can be used on every surface. 4 new colours have been added to the line to match the Glamour Line.

Glamour

The Glamour Line has been extended to 3 new products available in 6 colours all matching each other and suitable to enrich the New Stamperia Collection palette.

NEW PRODUCT

The new Glamour Pigment is used to Paint the flower made with Pasta Scultura and the stencil. The Pigment is mixed with Fluid Gloss Medium, according to the quantity of Medium you will obtain different effects. Using a little quantity of Pigment you obtain an almost transparent paint, a sort of a veiling with a see through effect. Adding more Pigment you can obtain a covering effect. The game is to play in between using different effects on the same art work.

Donatella Russo

To enhance the shiny property of Glamour Sparkles the Extra Glossy Finish is used as bond. The background of both boxes is Rice Paper.
